The Honorable George V. Voinovich, Governor

The financial statements of these independently audited organizations and the assets of these retirement systems were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts of these independently audited organizations and funds included in the fund types and account groups comprising the general purpose financial statements is based solely on the reports of the other auditors.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and reports of other auditors, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the State of Ohio at June 30, 1995, and the results of its operations and the cash flows of its proprietary funds for the year then ended in conformity with generally accepted accounting principles.

As discussed in Note 1 to the general purpose financial statements, the State adopted Statement 24 of the Governmental Accounting Standards Board, Accounting and Financial Reporting for Certain Grants and Other Financial Assistance, in fiscal year 1995.

As stated in Note 2, four technical colleges have been converted to community college status, therefore qualifying for inclusion in the State's reporting entity under Statement 14 of the Governmental Accounting Standards Board, The Financial Reporting Entity, in fiscal year 1995.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of Ohio. Such information has been subjected to the auditing procedures applied in our audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

We did not audit the data included in the statistical section of this report and therefore, express no opinion thereon.

Auditor of State
