The financial statements of these independently audited organizations and the assets of these retirement systems were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the financial statements of these independently audited organizations and the amounts of the retirement systems audited by other auditors included in the fund types and account groups comprising the general-purpose financial statements is based solely on the reports of the other auditors.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and reports of other auditors, the general-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the State of Ohio at June 30, 1998, and the results of its operations and the cash flows of its proprietary fund types, nonexpendable trust funds and discretely presented component units for the year then ended in conformity with generally accepted accounting principles.

As discussed in Note 2 to the general-purpose financial statements, the State of Ohio has implemented Statement 31 of the Governmental Accounting Standards Board, Accounting and Financial Reporting for Certain Investments and for External Investment Pools for the fiscal year ended June 30, 1998.

As discussed in Note 25 to the general-purpose financial statements, the State of Ohio has implemented Technical Bulletin 98-1 of the Governmental Accounting Standards Board, Disclosures about Year 2000 Issues for the fiscal year ended June 30, 1998. The Bulletin requires auditors’ reports dated after October 31, 1998 to include certain Year 2000 disclosures. The component units for the State of Ohio, which were audited by other auditors, issued their audit reports prior to October 31, 1998 and were not required to include Year 2000 disclosures. As such, the component units are not included within the State of Ohio’s Note 25 regarding Year 2000 disclosures.

Our audit was made for the purpose of forming an opinion on the general-purpose financial statements taken as a whole. The combining financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements of the State of Ohio. Such information has been subjected to the auditing procedures applied in our audit of the general-purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general-purpose financial statements taken as a whole.

We did not audit the data included in the statistical section of this report and therefore, express no opinion thereon.
